PROFILE

CS student specializing in Cybersecurity, with strong interest in software development, web technologies, and AI. Experienced in building practical projects using Python, JavaScript, React, and Next.js.

EDUCATION

Diploma - Computer Science & Engineering (Cyber Security)

M S Ramaiah Polytechnic

Bengaluru, India

2024 - 2027 (Expected)

CGPA: 8.7 / 10 | Class X: 80%

SKILLS

Languages & Web: Python, Java, JavaScript, HTML, CSS, SQL, React, Next.js

Tools: Git, GitHub, VS Code, MySQL, MS Word

Languages Spoken: English, Hindi, Kannada

PROJECTS

Focus - To-Do List | *HTML, CSS, JavaScript*

- Built a minimal task management app with persistent localStorage-based data storage.
- Added task filtering, inline editing, progress tracking, keyboard accessibility, dark mode, and responsive design.

Personal Portfolio | *Next.js, React, TypeScript, Tailwind CSS*

- Developed a responsive personal portfolio to showcase technical skills, projects, certifications, and education.
- Implemented reusable components, dark/light themes, animations, and a structured App Router architecture.

AI Username Generator | *JavaScript, Node.js, Express, AI API*

- Built an AI-powered username generator that interprets natural-language prompts and generates 20 relevant suggestions.
- Implemented constraint handling, regeneration, one-click copying, a responsive UI, and secure API integration.

CERTIFICATES

- Cyber Security Awareness and Attacks Workshop — Ramaiah Institute of Technology
- Cyber Security and Applied Ethical Hacking — Infosys Springboard
- International Tech Fest, InnovateX 4.0 — Presidency University
